THE MATERIAL

SENSY GIVES A SECOND LIFE TO ORGANIC SCRAPS

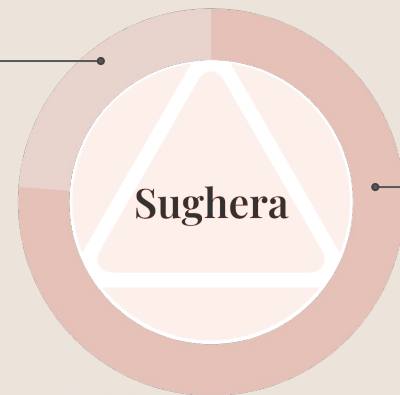

Sensy is a perfect example of a **CIRCULAR DESIGN** application and represents the new aesthetic of sustainability.

Sensy is made of **Sughera**, one of the blends **Mixcycling®**: a material that reuses our industrial scraps of cork and gives them a new life.

The texture created by the cork fibers on the surface of the cap communicates its natural soul and makes it different from each other: no Sensy is alike, each Sensy is a unique piece.

These recycled fibers are a true treasure of sustainability: thanks to this organic composition, Sensy drastically reduces the use of non-renewable resources and the CO2 emissions.
